In re Application of
Piero Del Soldato
Patent No. 6,869,974
Application Number: 09/926,326
Issue Date : March 22, 2005
Filing Date: October 15, 2001
Attorney Docket Number: 108907-
00020

DECISION ON PETITION

This is a decision on the petition for certificate of correction under 37 CFR 1.183 filed on April 19, 2005. The petition is properly treated under 37 CFR 3.81 (b) to correct the assignee on the front page of the above-identified patent by way of a Certificate of Correction.

The request is **Dismissed**.

Any request for reconsideration must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 C.F.R. § 1.136(a) are not permitted. The reconsideration request should include a cover letter entitled "Renewed Petition". This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Effective June 25, 2004, when a request to issue a patent to an assignee is filed after payment of the issue fee, a certificate of correction must be submitted as there is no time to process these requests before a patent is issued. See 69 Fed. Reg. 29865 (May 26, 2004).

Any request for issuance of an application in the name of the assignee submitted after the date of the payment of the issue fee, and any request that a patent be corrected to state the name of assignee must :

(A) state the assignment was submitted for recordation as set forth in 37 CFR §3.11 before issuance of the patent;

- (B) provide a request for a certificate of correction §1.323;
- (C) provide the fee set forth in 37 CFR §1.20 (a) and
- (D) provide the processing fee set forth in 37 CFR §1.17(I)

Petitioner has failed to establish (A). Petitioner request that "Antipolis (FR)" be substituted for "Paris (FR)". However, the location of the assignee on the patent agrees with the Office PALM computer database assignment records at the time of the issuance of the patent. Unless petitioner can establish the assignee's location was improperly recorded due to Office mistake, a correction of the assignee's location is not in order.
